

DESIGN LAYOUT • FLATTOO STENCILS CORPORATE LOGOS • STAINS • DYES AND MORE!

September 13-14-15, 2019

In this class you will learn to work with different coloring mediums such as interior and exterior dyes, acid stains. We will be covering larger stencil applications to show you how to tile pieces together to make one overall design. Students will also be working on their own sample boards that they can take home with them to use for marketing purposes.

We will be demonstrating the complete Flattoo processes utilizing Surface Gel Tek products including HD-24 Pre Grind, GelTek for profiling and Stain Mule. You will be surprised on what can be achieved using this unique system of creating graphics and this will absolutely help you take your business a step further with additional offerings. Why not learn how to personalize your projects with the use of Flattoo Stencils. The class will be taught by Bob and Lee Ann Harris and the Owner of Surface Gel Tek, Tamryn Doolan. Come learn in our relaxed environment!

Price: \$900.00 / Student

Attendees will receive 20% off any product purchase!
